Afternoon Tea

A large number of Earlington ladies were invited to a dime tea with Mrs. Brazelton at her lovely bungalow on East Main Tuesday afternoon. It was a merry gathering, the ladies entering into games and the novel contest with much mirth. Mrs. Long, one of the well loved members was kept at home on account of illness, for her was provided by the hostess a lovely bouquet of white carnations and ferns, tied to this were dainty green and white ribbons on the end was a slip of paper for each guest to write her name and a message to Mrs. Long, which was sent to her after the meeting. Mrs. Coyle the President of the Aid Society who was absent (on account of the illness of her daughter, Miss Bessie Coyle at Murfreesboro, Tenn.) did not forget was sent a little booklet with a message from the friends.

Delicious brick cream and macaroons was served and at a late hour the guests said good bye to Mrs. Brazelton who is a most charming hostess.

Spencer Melton Wants to be County Judge

Spencer Melton's friends are after him to run for the office of County Judge. Spencer is a well known, energetic, railroad man, and is popular in the county, and if he should run for the office he says that he will stump the county making speeches from his wheel chair.

The Bible School will meet promptly at 9:30 a. m. Preaching by the pastor at 11 a. m. and 7:30 p. m. The membership of the Church is urged to be present at the morning service, as a matter of importance is to be considered. The public is cordially invited to all the service.

District Convention Christian Churches

Mrs. John L. Long, Miss Elizabeth Long, Mrs. F. B. Arnold and Howard J. Brazelton, attended the district Convention of Christian churches at Corydon Tuesday and Wednesday as delegates from the church here. Mrs. Long is District Manager for the C. W. B. M. and presided over the sessions of that section in her usual graceful and impressive manner, and gave a splendid address. She was re-elected for the ensuing year. The local Auxiliary is the largest in the District, having a membership of fifty three.

The Convention was the largest attended for a number of years, and the reports from the Bible Schools, and Missionary Societies showed remarkable progress and a high degree of efficiency. The District composed of the churches of Hopkins, Webster, Union and Henderson, it includes approximately thirty schools among which the Earlington school ranks second. Mr. Brazelton delivered two addresses during the Convention, and there were others from the State workers and also from those in the District.

Next year the meeting will be with the Church at Dawson Springs.

HEADACHE, BILIOUS, UPSET? "CASCARETS"

It's Your Inactive Liver And Bowels—You Need Cascarets Sure

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and intestines can be quickly cured by nothing with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and your head clear for months. Children love to take Cascarets, because they taste good and never gripe or sicken.

Misses Hanna and McElrick were in the county seat Tuesday evening.

WILL T. MILLS WRITES

To the Citizens of Hopkins County: I am now serving my second term as County Court Clerk and my records as such are open to your inspection at any time. I shall be pleased to have you call at my office, and I invite your most careful consideration of my official record.

The County Court Clerk does not draw a salary, but his compensation depends solely upon receiving the fees for the work he does in each particular transaction. Every claim the County Clerk presents is itemized, showing the particular work done and it must then pass the scrutiny of the County Judge and County Attorney as well as be considered and allowed by the Fiscal Court. The County Clerk has no vote or voice whatever in any allowances made by the Fiscal Court.

I have served as County Court Clerk under the following officers: J. W. Wilson and R. B. Bradley, judges; Ruby Laffoon, H. F. S. Bailey and G. W. Spert, county attorneys; Justices of the Peace H. B. F. Whitson, John R. Evans, A. G. Lamb, W. E. Jago, L. H. Hewlett, J. B. Morgan, Sam Barnard, J. W. Sutherland, J. W. Priest, W. R. Branson, J. W. Brown, Sr., Wed Brown, Jr., L. F. Shelton, W. N. Dunn and W. S. Adams. All claims presented by me passed the scrutiny and met the unanimous approval of a quorum of these gentlemen. I have never presented a claim that I did not believe was legal and just, or one that these gentlemen whose duty it was to pass on them, did not believe was legal and just. None of them had any motive to allow me anything to which they did not honestly believe I was entitled.

I recognize the right of any citizen to inquire into my acts as a public official. My records have been carefully kept and I can show any citizen the exact work I did in each instance and the exact fee I received, and shall be pleased to have any citizen call and investigate for himself and am perfectly willing that he shall be the judge of any act of mine.

If I am chosen as County Judge, I shall so endeavor to act and keep my records that any citizen can, at any time, call and see for himself how I am conducting things. I shall use my influence to see that the county gets value received for every dollar expended and that it is expended in a judicious manner; and shall try to hew as close to the line of right and fairness as possible.

During the campaign there will be speaking appointments and I shall be pleased to meet the voters and my opponents face to face for the discussion of any matters of interest to the people.

I have nothing to conceal about my record as County Clerk. If any mistakes have been made they were honest ones. I do not claim that I am infallible, yet I do try to be very careful.

After a careful consideration of all circumstances and hearing all of the facts the people are to decide whether I am fit and qualified for judge; whether they can trust my honesty and integrity; whether they deem it their pleasure to elect me to this office.

Yours very truly,
WILL T. MILLS.

Chattanooga Expects to Entertain Over 100,000 Visitors at Reunion

ACCOMMODATIONS FOR ALL

Chattanooga is expecting an attendance of 100,000 to 150,000 at the Confederate reunion May 27-29, and is making preparations to entertain that number.

The hotel facilities of Chattanooga are not excelled by any city of like population in the south. The city has twenty-seven hotels, some of them of large capacity and built on modern lines. The hotel rates for the Confederate reunion will be the same as are charged every day of the week. Rates will not be increased by any local hotel during the reunion week. Chattanooga has hotels, boarding houses and private home accommodations for 150,000 visitors.

Passenger Rates Low

The Southeastern Passenger Association has adopted a rate of one cent a mile each way for the reunion. This rate applies to all the territory east of the Mississippi and south of the Potomac. The Southwestern Passenger Association, covering territory west of the Mississippi, has put the fare at one and one third cents a mile each way from point of purchasing tickets to the Mississippi river. From the river to Chattanooga the one cent rate applies. An effort is now being made to have the Southwestern Passenger Association adopt the one-cent rate also in its territory. The Chattanooga Veterans' Reunion Association is asking the co-operation of all interested parties to get the rate reduced west of the Mississippi.

Studebaker

"Young man, when you buy a buggy, be sure it's a Studebaker"

Sound advice from the man who has been driving one for twenty years.

When you buy a Studebaker buggy you are buying all the skill, experience and science in buggy building that half a century can produce. You are protecting yourself against the mistakes of younger builders.

You will always be proud of the Studebaker nameplate, for there isn't a buggy on the road that is its equal for style, luxury and good looks.

Flexible bent-reach gear, graceful lines, solid corner, plugless body, double-ironed shafts, are a few of the special Studebaker features.

The new close-fitting shifting rail is enough in itself to make you buy a Studebaker buggy.

KENTUCKY MANUFACTURERS ARE ORGANIZED

Shippers, Whether Manufacturers or Not, Will Become a Part of the Organization

FOR THE GENERAL BETTERMENT OF MANUFACTURING AND SHIPPING CONDITIONS.

Title Will Be Changed to Kentucky Manufacturers' and Shippers' Association.

UNITED FOR COMMON GOOD

Advantage of Manufacturing To the Communities of Blue Grass State—Hope To Increase Commercial Prestige of State by Organization—Officers and Directors Prominent in Commercial Life of State.

Organization of the Kentucky Manufacturers' Association.

The Kentucky Manufacturers' Association was organized in April, 1912, by a few manufacturers and shippers of Kentucky for the purpose of the general betterment of manufacturing conditions within the Commonwealth.

THE HON. JOHN FRANKLIN BIBLE, General Manager of the Mogul Wagon Co., Hopkinsville, Ky. President of the Kentucky Manufacturers' Association.

MANUFACTURERS AND SHIPPERS COMPREHENDED IN MEMBERSHIP.

It is intended that the membership shall embrace Manufacturers in Kentucky as Manufacturers and Shippers, and Shippers as well who may not be Manufacturers. In other words, the Kentucky Manufacturers' Association is an organization for Manufacturers and for Shippers in Kentucky.

The Title of the Association Will Be Changed to Kentucky Manufacturers' and Shippers' Association.

It has come to the realization of the Officers and Board of Directors of the Kentucky Manufacturers' Association that the title assumed is too restricted. The Association should have been called in the beginning the Kentucky Manufacturers' and Shippers' Association, as its work is devoted to the interest of both Manufacturers and Shippers. It is practically, positively decided that at the next Annual Convention of the Association, which will occur in Louisville on April 17th, 18th, and 19th, the title will be broadened to the Kentucky Manufacturers' and Shippers' Association, that it may comprehend in name as well as in fact all of the interests which it is its purpose to serve.

SHIPPERS WHO ARE NOT MANUFACTURERS.

Every subject and every problem incidental to the interest of Shippers will be given the same heedful and constructive attention, as subjects which concern Manufacturers as Manufacturers and Shippers.

The manufacturers of Kentucky, no less than the manufacturers of other states, are confronted with the necessity for solving many momentous problems, which mean much to the individual manufacturer, of times more than he conceives or realizes.

Can Not Be Solved Individually.

He can not solve them alone. Such propositions and conditions as are unwholesome and injurious to manufacturing interests, in so far as the results to be anticipated are concerned, must, of course, be opposed. Such propositions and conditions as are meritorious in their nature are to be supported. The individual manufacturer can do little in either direction, therefore, organization is absolutely necessary.

Study and Formulation.

The study of many problems which present and the formulation of all of the reasons for proposed legislation and all the reasons why certain legislation should not be enacted can only be accomplished through concentration and organization and by the instrumentality of the manufacturers' associations and their officers and directors in ways not practicable at all or available to the individual manufacturer.

Advantage of Manufacturing To the Community at Large.

To communities at large the advantage of manufacturing is indeed apparent. Manufacturing brings prosperity to cities, to villages and towns in which it is conducted, and in turn agricultural sections profit as well as the larger distributing centers. Great is manufacturing.

Manufacturers Have the Interest and Welfare of Their Operatives and Employees at Heart.

As a body, manufacturers have at heart the welfare of their operatives and employees. Indeed, they can not but be interested in all such subjects as workmen's compensation and accident protection, if only upon the basis of so low a motive and incentive as their own personal interest. Manufacturers are not, as many would-be reformers seem to feel, of necessity, obstructionists. They simply ask, in discussion of matters of this sort, a fair and equitable decision, so that their interests and those of their employees and the public in general shall be equally conserved.

Many Matters Will Be the Subject of Helpful and Constructive Attention.

There are many subjects to which the Kentucky Manufacturers' Association will give its helpful and constructive attention. It will give heed to matters having to do with factory inspection, with the study of expedients for fire prevention, and with methods of improving risks, with a view to reduction of rates of insurance. It will give heed to problems of transportation, equitable rates of freight, and the fair adjustment of all problems in connection with transportation. There will be committees charged with special attention to certain problems and difficulties of manufacturers in general, which the individual is powerless to do. Every question which concerns manufacturing of interest to manufacturers will enter into the business and the calculation of the Kentucky Manufacturers' Association.

Taxation.

For instance, there is the subject of taxation, which is of vital import to manufacturers, and to which the Kentucky Manufacturers' Association will address its most careful and intelligent attention.

Neither Local nor Sectional.

The Kentucky Manufacturers' Association represents every section of Kentucky, yet being neither local nor sectional. The officers of the Association are:

President—John Franklin Bible, The Mogul Wagon Co., Hopkinsville, Ky.
First Vice President—Philip S. Tuley, The Louisville Cotton Mills Co., Louisville, Ky.

Second Vice President—J. W. Allen, The Owensboro Wheel Co., Owensboro, Ky.

Treasurer—F. P. Toof, Cohankus Manufacturing Co., Paducah, Ky.

The Directors of the Association are:

Mr. Philip S. Tuley,

President and Treasurer of the Louisville Cotton Mills Co., Louisville, Ky. First Vice President of the Kentucky Manufacturers' Association.

F. A. Ames, The F. A. Ames Co., Owensboro, Ky.; R. A. Cochran, Maysville Cotton Mills, January & Wool Co., Maysville, Ky.; F. H. Delker, Delker Bros. Lumber Co., Henderson, Ky.; George T. Herr, The Owensboro Lumber Co., Owensboro, Ky.; H. Schuman, Carrollton Furniture Mfg. Co., Carrollton, Ky.; B. G. Dickinson, Dickson Bros., Glasgow, Ky.; Charles D. Bates, Turner Day & Woolworth Hardware Co., Louisville, Ky.; Wm. B. Hardy, Hardy-Hardy Co., Louisville, Ky.; James Small, Manager Central City Coal & Iron Co., Central City, Ky.; Allen Zaring, J. W. Zaring Grain & Oil Co., Richmond, Ky.

Walter P. Dickerson, General Secretary, Newport and Louisville, Ky.

The general precepts of the Kentucky Manufacturers' Association may be summarized as follows:

To associate resourceful men in the purpose to sustain strength to manufacturers and the manufacturing and commercial prestige of the State of Kentucky.

To unite the manufacturers of Kentucky in one common cause.

To take a positive interest in the functions and acts of the state affecting taxation, legislation, transportation and all other subjects of interest to manufacturers.

To attract manufacturing industries by the improvement of manufacturing conditions.

To maintain an organization to get results and therefore be deemed worthy of the full and ready support of the Kentucky manufacturers.

To establish complete departments for analysis, research and study of all the agencies, elements and factors of advancement and prosperity.

The Annual Dues From the Membership to Be Graduated and Members to Be Divided Into Classes.

It is likely that some change will be made in the Annual Dues paid to the Kentucky Manufacturers' Association by the membership. Heretofore, the fee has consisted of a flat rate of \$25 for each for all classes of Manufacturers and Shippers. The Officers and Board of Directors now believe that the membership should be divided into several classes based on the number:

Walter P. Dickerson,

Newport and Louisville, Ky. General Secretary Kentucky Manufacturers' Association.

of employees on the pay-roll of members. For instance, Class A would consist of members employing not more than five operatives; Class B, more than five and under twenty-five operatives; Class C, more than twenty-five and under fifty operatives; Class D, more than fifty and under one hundred operatives; Class E, more than one hundred operatives. For each class it is proposed to make a special fee. Class A, employing less than five operatives, would have the lowest rate, and Class F, employing more than one hundred operatives, would be entitled to pay the maximum rate.

Annual Convention of the Kentucky Manufacturers' Association in Louisville, Ky., April 17th, 18th, 19th, 1913.

The Annual Convention of the Kentucky Manufacturers' Association will be called to order at Louisville, Kentucky, in the Convention Hall of the Hotel Henry Watterson on April 17th, 1913. The Convention will continue April 18th. A Banquet to the Manufacturers and Shippers in Kentucky and their guests, will take place on the evening of April 18th, at 7 o'clock. April 19th will be devoted to the meetings of Officers, meeting and organization of the new Board of Directors, and the appointment and meetings of Committees.

It is planned to make the Convention of the Kentucky Manufacturers' Association one of the greatest Industrial and Commercial gatherings which has ever taken place in Kentucky.

The Officers and Directors of the Kentucky Manufacturers' Association have invited many eminent men from neighboring States and many prominent Kentuckians to address the convention on Industrial and Commercial subjects and on other subjects of interest and importance to Manufacturers, Shippers and Business Men. It is planned to make this convention one of the greatest industrial and commercial gatherings which has ever taken place in Kentucky. Several Governors of great States will be in attendance.

TRUE KENTUCKY HOSPITALITY.

Our reputation for hospitality demands—whether he are members of the Kentucky Manufacturers' Association or not—that we gather in goodly numbers to greet the guests which we have urged to be present, and to extend the right hand of fellowship and to entertain the strangers who will be within our gates with the warmth and spirit of cordiality which is the birth right and the heritage of our people.

Every Industrial Organization in Kentucky United to Send Delegates.

A successful convention of Kentucky Manufacturers and Shippers means much to the future welfare and Industrial and Commercial prosperity of Kentucky. Mutual Co-operation is the order of the day. It builds great states and great cities and towns. The "pull together" is the "pull" which counts. Nothing in the line of human endeavor is impossible. Therefore, every man interested in the welfare of Kentucky should interest himself in this coming Convention of Kentucky Manufacturers and Shippers.

Real Friend.

There is one friend who will never fail you while you have hands to move and a brain to plan. In your dearest hours she will be your sweet refuge, and in times of prosperity she will guard you from "the pride which goeth before a fall." She will bring you long nights of restful sleep at the end of your busy days and when other friends grow careless or disdainful, she will absorb you more and more. Her name is Work, and neither the highest nor the lowest can be happy for long without her.

Title of Pope.

It is uncertain when the title pope was first used. The earliest instance we can cite, is that of Heraclius, Patriarch of Alexandria, in 222. It is still the ordinary title of parish priests in the eastern Greek church. In the west, it continued for several centuries to be applied to bishops generally, but it was restricted to the Roman pontiff by Gregory VII. in a synod, held at Rome in 1073.

When He Was Late

"What made you so late?"
"I met Smithson."
"Well, that is no reason why you should be an hour late getting home to supper."
"I know, but I asked him how he was feeling, and he insisted on telling me about his stomach trouble."
"Did you tell him to take Chamberlain's Tablets?"
"Sure, that is what he needs."

Wife's Ashes as an Ornament.

An ingenious method of disposing of the ashes of a cremated body has to be recorded. After a woman had been cremated the husband took the ashes to a chemist for the purpose of extracting the iron, which he is now wearing set in his ring, as one would wear a diamond.

Every family that has children is liable to have croup; invariably at night. If HALLARD'S HORE-BOUND SYRUP is kept in the house, it saves going after the medicine at an inconvenient time and checks the attack promptly. Price 25c. 50c and \$1.00 per bottle. Sold by St. Bernard Mining Co., Incorporated, Drug Department.

Strong in Memory.

Rural winter joys increase in an inverse ratio to the square of the distance, or words to that effect. It will be noticed that Whittier did not write "Snow Bound" until after he had become a city-dweller and the memory of frosted nose and ears and tingling hands and feet had become dimmed and vague. A too accurate memory, like acute truthfulness, is a terrible handicap for a real poet, just as it is to an editor.

For earache, toothache, pains, burns, scalds, sore throat, try Dr. Thomas' Eucletic Oil, a splendid remedy for emergencies.

Rare "Breeches" Side.

A "breeches" Bible, dated 1601, was recently bequeathed by Dr. William P. G. Slack of Dublin to his brother, the Rev. Gibson J. H. M. Black. This is the translation in which Adam and Eve are described as making themselves "breeches" of figleaves. The authorized version uses the word "aprons."

Birds Voracious Feeders.

As instances of the amount of food some birds consume, the Rev. C. T. Phillips, vicar of Ivelig, a well-known Cumberland naturalist, the other day found in the crop of a wood-pigeon he shot 140 beech nuts, whilst another wood-pigeon had devoured more finely-chopped turnip leaves than he could hold in the palm of his hand.

GREAT INTEREST IN MORGAN'S WILL

Much Speculation Over Disposition of Dead Financier's Art Treasures.

NEW YORK, April 16.— The will of J. P. Morgan is expected to be filed in the Surrogate's office here within a few days, according to unofficial announcement here today. It is said that the general provisions of the will have been explained to members of the family and some phases of it to the members of the Morgan firm, but no information has been given out as to its terms.

The greatest interest centers in the disposition of the Morgan art treasures. It is understood that the directors of the Metropolitan Museum have no idea of what Mr. Morgan has willed in the matter. It is pointed out, however, that it seemed certain Mr. Morgan would not have contemplated transfer of the title to the treasures to any individual, as this might automatically make many of the works of art, which were imported without tax because they were intended for exhibition purposes, subject to duty.

Enormous policies of insurance are being placed in the treasure, it is reported. The value of the Morgan collection has been estimated at \$34,000,000, of which \$24,000,000 represents the great collections in the museum or in storage and \$10,000,000 the books and works of art housed in Mr. Morgan's library. The insurance is being taken out by J. P. Morgan, the son, as trustee.

WHY IT SUCCEEDS

Because It's For One Thing Only, and Earlington People Appreciate This.

Nothing can be good for everything. Doing one thing well brings success.

Doan's Kidney Pills are for one thing only.

For week and disordered kidneys Here is Earlington evidence to prove their worth. Mrs. Pearl Walton, Earlington, Ky., says: "Some years ago I began to suffer from weak kidneys. I did not pay much attention to the trouble at first, but when I found out that the kidney secretions were unnatural, I knew that something must be done. My rest was broken at night and in the morning I was tired and worn-out. My mother had received great benefit from Doan's Kidney Pills, so I began taking them. They cured me and my kidneys have been in good condition since."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Railroad Dangers

The noise made by a false railway train is chiefly directed away from the train at the side. Comparatively a small portion of the noise is projected along the track in front of the train. Any other unusual noise at the same time may divert a persons attention from the noise made by an approaching train.

Another reason why trains may come upon a person walking on the track before he realizes their approach is a quality that sound possesses in common with other wave phenomena, although to a less degree, of traveling in straight lines. Thus a fast train approaching a sharp curve on the concave side of which there is high ground and on the convex side a broad plain will give a person on the curve almost no warning of its approach until it swings into a view a short distance away.

Walking on a road with two or

more tracks is particularly dangerous. A large portion of accidents to trespassers occur on double track roads where a man in getting out of the way of one train steps onto the other track in front of another train which he has not seen or has not heard.

It seems worth while, therefore to set down the following rules, which should be observed by every one who walks on the railway tracks, as follows: (1) Keep constant watch of the track, both in front and behind; (2) watch and listen with particular care when approaching a curve; (3) when walking on a double track road, keep on the left hand track and do not fail to keep watch also in the rear, since reverse movements are sometimes made on this track; (4) it is better to walk beside the track than to walk the ties; (5) when tempted to walk on the track, remember that you are placing yourself in great danger.

MAKES GOING HARD FOR THE RAILWAY THIEVES

Act Just Passed Imposes \$5,000 Fine and Federal Imprisonment

Car and depot thieves will find their operations in the future more difficult than in the past, and will have to face prosecution in the Federal Courts as well as before state tribunals as the result of the bill introduced by Representative O. C. Carlin, of Alexandria, Va. passed by both Houses of Congress, and approved by the President.

This Act imposes a maximum fine of \$5,000, or imprisonment for not more than ten years for any person convicted of unlawfully breaking into any railway car containing interstate or foreign shipments of freight or express, or of stealing or obtaining by fraud or deception from any car, depot, vessel or wharf, any freight, express or baggage which constitutes or is a part of any interstate or foreign shipment.

While the Carlin Act in no way infringes on the jurisdiction of the state courts, it puts the whole power of the Federal Department of Justice behind the decision and prosecution of persons guilty of stealing from cars or depots, since it will be practically impossible for thieves to distinguish between interstate or foreign shipments. It is confidently expected that this law will have a powerful effect on breaking up thefts of this character which not only involve a serious loss to the railways and cause great inconvenience to shippers and travelers, but are a constant menace to railway employees and the traveling public, since it is notorious that car thieves do not hesitate to interfere with trains or resort to other expedients to serve their own purposes, regardless of consequences.

But He Wouldn't Get Up.

There was not even standing room in the crowded electric car, but one more passenger, a young woman, wedged her way along just inside the doorway. Each time the car took a sudden lurch forward she fell helplessly back, and three times she landed in the arms of a large, comfortable man. The third time it happened he said, quietly: "Hadden't you better stay here?"—Exchange.

Along with dyspepsia comes nervousness, sleeplessness and general ill health. Why? Because a disordered stomach does not permit the food to be assimilated and carried to the blood. On the other hand, the blood is charged with poisons which come from this disordered digestion. In turn, the nerves are not fed on good, red blood and we see those symptoms of nervous breakdown. It is not head work that does it, but poor stomach work. With poor thin blood the body is not protected against the attack of germs of grip—bronchitis—consumption. Fortify the body now with

IS THE EARTH LARGE ENOUGH?

If the earth is to hold the resurrected of mankind, as the Scriptures declare (Ez. kiel 36:55) the resurrection must take place soon, as enough of mankind have now been born to nearly fill it.

In 1815 its population was 637,000,000, based on estimates of Volney, 1804, of 437,000,000, Pinfferton, 1805, of 700,000,000, Malte-Brun, 1810, of 640,000,000, Morse, 1812, of 766,000,000, Grubbe von Hemso, 1813, of 686,000,000, Balbi, 1816, of 704,000,000, and Balbi 1843, of 739,000,000. Within the last fifty years the population has doubled due to fewer and improved methods of food production and medical skill in prolonging life.

Modern chronologists, taking their stand on the Bible figures, accept the present year, 1913, as the year of man on the earth, 6041. Adam lived 930 years, so that from his death to the present time is 5111 years, or, counting three generations per century, 153 generations. Ignoring the Deluge, and the great wars and pestilences which have often obliterated nations, and counting earth's population as a steadily growing number from Adam's day to ours, we have 153 generations of 333,500,000 each, or 51,025,500,000. The total number of human beings who have lived does not exceed half this number or, say 25,512,750,000.

Will the earth hold these when they are resurrected, is an interesting question. Let us see. In a square mile there are 27,878,400 square feet. In a million square miles, therefore, there are 27,878,400,000,000 square feet or 1082 square feet for every man, woman and child that ever lived—2164 square feet for every pair. Australia, with 2,946,691 square miles, would provide for every pair of humankind a city lot 40 ft. wide by 160 ft. deep, Europe with 3,850,000 square miles, would provide them a vegetable garden 40 by 200 feet, North

tree and the vine do yield their strength" (Joel 2:22), when "They shall sit every man under his vine and fig tree" (Micah 4:4) when "The desolate land shall be tilled" and "This land that was desolate shall become like the garden of Eden."—Ezekiel 36:34-35.

Experience Gained While In The Drug Business

I have been troubled more or less in the last five years with kidney trouble and from the experience gained while in the drug business and from different cases where I have sold Swamp-Root with perfect satisfaction to those who purchased it, and as I never had a single complaint regarding the medicine while I was in business, I was in a position to know that it was a great preparation and it did not fail me when I used it myself. It has certainly afforded me great relief at all times that my kidneys have troubled me and I would not be without it. I always recommend Dr. Kilmer's Swamp-Root to my friends as I believe it to be a medicine of great curative value in the diseases for which you recommend it.

Sincerely,

D. A. KOONCH.

Worried Hero.

A critic of Wells' novel, "Marriage," finds in the confounding of the hero "the desire to have it all ways; to possess a woman who shall have all the charm and the caprice of the eternal feminine; who shall, by the grossness of her desires and the pettiness of conversation, give him an agreeable sense of superiority, and yet shall, to order, acquire deep spiritual insight when her husband feels he needs it."

"My little son had a very severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished he was as well as ever," writes Mrs. H. S. Sikes, 29 Dowling street, Sydney, Australia. This remedy is for sale by All Dealers.

Coughs and colds, when neglected, always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscadine, Ala., writes: My wife was down to bed with an obstinate cough, and I honestly believe had it not been for Dr. King's New Discovery, she would not be living today. Known for forty-three years as the best remedy for coughs and colds. Price 50c and \$1.00. Recommended by St. Bernard Mining Co., Incorporated, Drug Department.

Men Infinite Variety.

As we sit down and ponder over the summer courtship we find the hand that wielded the canoe paddle now wields the broom. The suppers on river banks are now in a small dining room. The gazing at the sky in summer time is now looking to see if the wash can safely be put out. The hand in the wash tub is the hand that that trailed over the canoe side. Pains in the Stomach

If you continually complain of pains in the stomach, your liver or your kidneys are out of order. Neglect may lead to dropsy, kidney troubles, diabetes or Bright's disease. Thousands recommend Electric Bitters as the very best stomach and kidney medicine made. H. T. Alston, of Raleigh, N. United States Behind Europe.

In the matter of porcelain enameled sanitary ware in Great Britain and Germany leadless enamels are generally used and are there regarded as even superior in durability to the enamels in which lead is used. The result is that in neither Great Britain nor Germany is this industry looked upon as a dangerous one, while in the United States it ranks as the most dangerous, because of the character of the materials used and the almost total absence of measures to protect the workmen.
